

Cambridge Model Engineering Society

50th Anniversary Rally

20th and 21st June 2009

Club House and Track, Fulbrooke Road, off Grantchester Road, Cambridge, CB3 9EE

We would like to welcome all model engineers to our anniversary rally, celebrating the opening of our original Fulbrooke Road railway in 1959

We have a ground level track with 3 ½, 5 and 7 ¼ gauges, some 1500 feet long, in a semi-wooded setting. We can accommodate most types of locomotive, apart from large narrow gauge engines. The minimum radius is about 40 feet. Traction engines and any other type of engineering model will be welcome. Please bring a current boiler certificate.

Meals and refreshments will be available over the weekend and limited camping space is available. For further information or to book a camping space contact Andrew Clarke, 01223 880639, after 7 pm.
